CENTRO Data-Ark
Quick Restore Procedure Guide

If you have replaced your computer and need to recover your data
Goto Website www.data-ark.co.uk
Click the link to download the Windows Backup Client
Double click to run the client software.
Choose Ahsay-ACB to Install
After the Installation completes launch the application and login with your Data-Ark Username and
Password then choose RESTORE
Choose the date of the backup. Select the folder or files that you want to restore, then choose restore to
original location or an alternate location.
